FLOATING FISH FEED

Premium quality fish feed

Produced by Twin Screw Extrusion Technology
first time in North East India

Our certification

ABOUT UGRAYA GROUP

Ugraya Group is an ISO 9001:2015, 2200:2005 and GMP quality 2023121819 certified, diversified leading animal feed company with 10 plants across northern and eastern India. The group deals in all variants of Poultry & Fish Feeds. The group has been focused on maximizing the returns for livestock farmers since 2001. Headquartered at New Delhi, the group provides its services from Kashmir to Tripura through its various units.

Inspired by its extraordinary success in broiler feeds, the group has forayed into aqua division with its state of the art manufacturing plant with double extrusion technology at Guwahati.

NUTRITECH FISH FEED

Nutritech floating Fish feed is exclusively formulated for all aqua species like IMC, Cat Fish, Pangasius and Tilapia that have relatively wide range of nutritional demands for optimum growth and Lower FCR. Intensive R&D and scientifically tested formulation has been done by our expert team for best performance.

To ensure the highest standard of feed production, our entire production unit has been completely imported from abroad from a world class aqua machinery supplier.

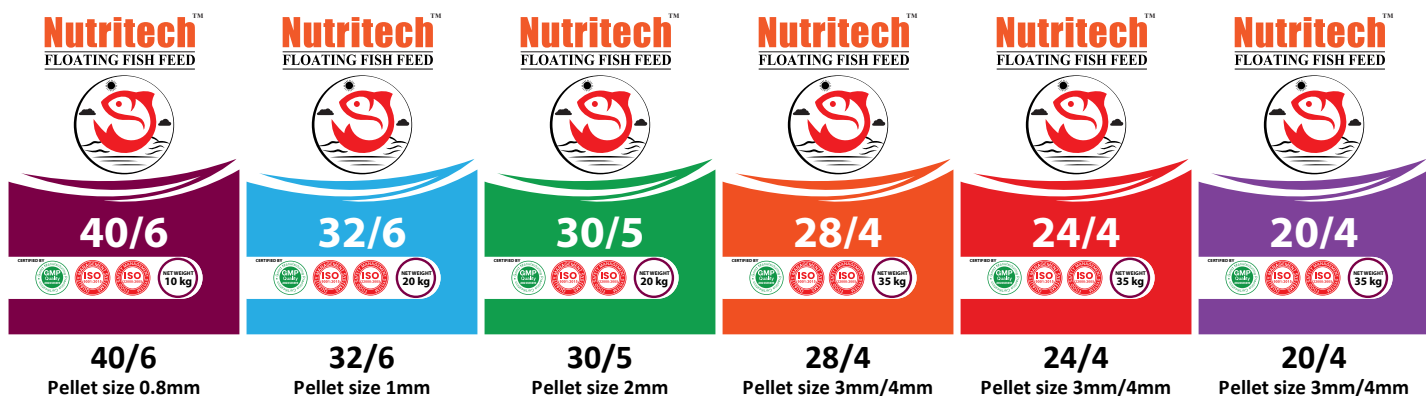

All the necessary nutrients required for growth of fish are included in the feed in a balanced manner, Inclusion level of each raw materials is very precise with perfect balance of all nutrients like total fat, digestible energy, digestible protein, amino acids and other trace elements.

Hydro- stabilization of Nutritech Floating Fish Feed has been found for 12-15 hours which provides good quality of fish meat.

NUTRITECH FLOATING FISH FEED FEATURES
